From: Sarah Selle, Manager Lean Process Improvement

Date: 27 Jun 2025

Subject: Clinical Managers of Mental Health Services (MHS)

I am excited to announce **Meghan Campbell** and **Marianne Bourgeois** as the successful applicants for the Clinical Manager positions at Mental Health Services (MHS).

Meghan will be the new Clinical Manager of the following programs: Recovery Outreach Program, SHARE, Adult Counselling, Ontario Structured Psychotherapy Program, Support within Housing, Supported Independent Living, Community Homes for Opportunity and Central Intake/Access MHA.

Meghan has been a valued and dedicated caseworker with MHS since 2017. Throughout her time with us, she has consistently demonstrated strong clinical expertise, a collaborative spirit, and a deep commitment to compassionate client-centered care.

Meghan's new role will begin *August 25, 2025*.

Marianne will be the new Clinical Manager of the following programs: Case Management, Mental Health and Addictions Supportive Housing (MASH), Occupational Therapy, Family and Peer Support, Caseworker Team Lead, and Youth Intensive Case Management (You-it).

Since joining MHS in 2019, Marianne has excelled as a caseworker and most recently, as a Court Support and Diversion Caseworker. Previously, Marianne was a Rehab Assistant on the Inpatient Rehab unit.

Marianne's leadership skills, combined with her passion for mental health advocacy, make her exceptionally well-suited for this new role.

Marianne begins her new role on *July 13, 2025*. This is a temporary position, as she is replacing Molly Fulton, who is on secondment to the County of Renfrew to lead the Hart Hub initiative.

As Marianne and Meghan begin their new leadership roles, we are excited to see our programs continue to grow, innovate, and adapt to serve the diverse and evolving needs of our community.

Please join me in *congratulating* Marianne and Meghan on this exciting new opportunity.
