

# Pembroke Regional Hospital

## MEMO

**To: All Staff and Physicians**  
**From: Lisa Bradley, Clinical Director of Rehabilitation, Medical Programs, and Ambulatory Clinics**  
**Date: March 13, 2024**  
**Subject: Clinical Manager, Ambulatory Clinics and Vascular Health**

---

I am pleased to announce that Kirsten Johnson is the successful applicant for the position of Interim Clinical Manager of Ambulatory Clinics and Vascular Health. Kirsten will be replacing Danielle Rae for the duration of Danielle's upcoming maternity leave which is tentatively scheduled to start at the beginning of May 2024.

Currently, Kirsten is the Clinical Manager of Infection, Prevention and Control (IPAC), Policy and Procedure, and Clinical Placements and has accountability for several other initiatives such as Trillium Gift of Life and Emergency Preparedness. She has been with our organization since 2016 and has held a variety of leadership positions including leading our most recent hospital accreditation in 2023.

As Kirsten transitions into this new role, she will continue to support the IPAC program and will be working in a hybrid model until late summer 2024. Julia Reddy will be assisting Kirsten to support the portfolio operations onsite during the transition period while continuing to support the Decision Support Team.

Over the next few months, we will be looking at the requirements to backfill the remaining components of Kirsten's role.

Please join me in congratulating both Kirsten and Julia and welcoming them to our team!
